

Your well-being is FCA's #1 priority. Here's what we're doing to protect your health and peace of mind so you can focus on getting down to business.

SAFE SPACE 2021

SAFE + CLEAN PLAN

FCA firmly believes that we have to be the leaders in showcasing safe conferences while still allowing the chiropractic family to have fun and learn.

Temperature checks will be conducted & comfort stickers will be provided before entering the event. Anyone with an elevated temperature of 100.4°F/38°C or higher will not be allowed into the show. Also, each vendor and attendee will have a green/yellow/red sticker displayed on their badge, reflecting their personal comfort level.

Masks will be provided for attendees or vendors who want one. Masks are kindly provided by our sponsor ScripHessco.

Registration: We highly encourage you to register in advance so we can reduce the wait time in line! When you do arrive, we will have ample ability for you to socially distance while waiting in line. Plexiglas shields will be placed on registration counters.

Hand sanitizer stations will be available throughout the event. Touchless hand sanitizer stations will be plentiful throughout the venue and in trade show floor.

Exhibit Hall: We are expanding the aisle ways and increasing the size of each both to easily allow for social distancing. Highly accessed areas will be widened, eliminating close contact as much as possible. Nightly cleaning of all touchable surfaces, hand sanitizer stations throughout the show-floor and exhibitor education of best practices are just a few ways we are ensuring everyone's safety throughout this event.

Each classroom will have seating which accommodates 6' social distancing, filling each room with less than 40% normal capacity. Additional cleaning measures will take place between every class sessions.

F&B will be provided in a no-contact way

Outdoor spaces will be used during break times. If you are looking for outdoor options during breaks and meals, adequate outdoor seating will be available.

• Please note that these safety measures will be updated based on current CDC recommendations. [Click here and "Search by Origin/Destination"](#) in order to view which states currently have flight restrictions.

Are you concerned about flying? Research has shown that there is very little risk of any communicable disease being transmitted on an aircraft.

[Complete safety considerations, cancellation policies and terms of use for FCA events will also be provided during the online registration process.](#)

THANK YOU FOR RESPONDING!

70% of responders to recent surveys tell us that they want to get back to events with appropriate safety procedures in place. We look forward to welcoming you! Attendance is very much a personal, individual decision and is not a mandate. If you don't want to return to live events just yet, please know that online alternatives are available for you now on ChiroLearn.org and many live options are being planned in 2021. Your feedback is always important, as it guides our decisions in providing services to you.
