Nearly 80% of medical providers aren't compliant with the No Surprises Act (NSA).

Starting January 1, 2023, 100% of them are going to wish they were.

- \$10,000 government fines
- Patients disputes eliminate entire bills
- New administrative burdens for staff
- Third-party review of medical necessity
- Patient and attorney misuse and abuse

Help your members not only comply with but take advantage of the law.

The time is now to comply with the NSA.
