

PROF. DR. PAUL LING TAI

DPM, FACFS, ABPS, ABAARM

Powerful & Natural Protocols to a Bright & Clear Brain! *Eliminate brain Fog & Enhance Memory*

Description:

Every 70 seconds a new Alzheimer's patient is discovered. A major article in **Business Week** shows the American Aging Population "**Can't Remember**".

The **brain shrinks up to 10%** after the age of 50, with loss of Memory, Forgetfulness, Brain Fog, and Stressfulness because we can't think or decide!

This Lecture will give your **Practical, Easy, Plant-based** supplements to stop Dementia & activate your brain sharper, more powerful, and restore your Memory. A must information if you are **50 and over**, or if you have patients with Brain issues. You will love this lecture!

Objectives:

- Learn a Powerful & Natural Protocol for a Bright & Clear Brain!
- Eliminate Brain Fog & Enhance Memory
- Over 30,000 Brain & Nerve Cells DIE EVERYDAY – how to Retain Brain Cells
- Learn about Brain Shrinkage that occurs starting at 55 years old.
- Explore aspects of Cognition affected by Aging.
- The three victims of Alzheimer's Disease: Memory – Judgement - Reasoning
- Mitochondria's role in Aging & Brain Health - Mitochondria as a solution for Alzheimer's
- Mitochondria-based Protocol for combating Cognitive Decline
- Metabolism & Mitochondria – All-Natural Ingredients to support Brain Function
- Liposome Methyl B12 & Folic Acid as a solution for Alzheimer's
- Liposome-based Protocol for combating Cognitive Decline
- Pathophysiology of Alzheimer's Disease
- Brain & Cognition based Protocol for combating Cognitive Decline
- Relationship between Inflammation & Alzheimer's Disease
- Immune Support based Protocol for combating Cognitive Decline
- Study Pregnenolone's Role in Helping Brain Cells
- Review Age Related Levels & the Benefits of Pregnenolone
- Progesterone based Protocol for Brain Support

- Acetylcholine/GlyceroPhosphoCholine (GPC) function in the Brain
- GlyceroPhosphoCholine based Protocol for Brain Function
- Blood Flow – The Effects of Nitric Oxide
- Dr. Tai’s Thermography Before & After Total Circulation
- Relationship between Melatonin & Alzheimer’s Disease
- Relationship between STRESS & DEPRESSION and Alzheimer’s Disease
- Feeling & Behavior based Protocol for Brain Function
